Your Partner In Copper-based Alloys

APD is a leading European producer of copper-based alloys and expert in foundry processes, with a long history and experience in the sector.

Since 1985, we have been classifying and recovering residues for the manufacture of high quality copper-based alloys in continuous casting and in ingots.

We are an environmentally committed and responsible company basing its principal values on innovation, technology and expertise.

Our long experience and a stable portfolio of national and international clients are the evidence of our strength. From our location in Barcelona, we are selling to 25 different countries on 3 continents.

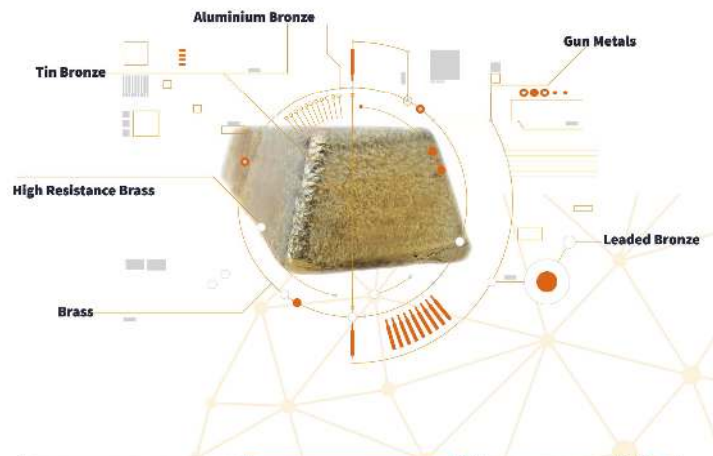

www.apd-fundicion.com

INGOTS

Ingots are casted in a large number of alloys under any international standard.

APD alloys
 Ingots are casted according to any current international Standard (ASTM, AFNOR, BS, DIN, etc.)

We invested in a new warehouse with a stock capacity of 1.300 Tn.

Aluminium Bronze (CC333G) Tin Bronze (CC483K) Gun Metals (CC493K) High Resistance Brass (CC762S)

CONTINUOUS CASTING

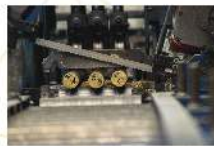

We offer a wide range of tubes, rods and plates in our standard alloys under EN 1982:2018. We also accept tailor-made projects under any international standard.
